About us

تعمل روائع العلوم في مجال الأجهزة والمستلزمات الطبية والمختبرات والعلاج الطبيعي مكافحة العوى - الرعاية الاولية ومستلزمات التأهيل العلاجي. والإحتياجات الصيدلانية.

نحن شركة تأسست حديثًا مكرسة لنصبح واحدة من أفضل الشركات الرائدة في السوق في تنفيذ أحدث التقنيات والمنتجات الأكثر تقدمًا في الطب. نقوم باستيراد وتسويق معدات ومستهلكات الرعاية الصحية والطبية للمستشفيات والعيادات. نحن نكافح من أجل مساعدة المتخصصين في الرعاية الصحية على أداء وظائفهم بشكل أكثر كفاءة مع تعزيز رعاية المرضى. نظرًا لأننا مدعومون بقدرة مالية ممتازة ، وفريق عمل محترف ومؤهل ، فإننا نعمل لنكون أحد الوكلاء و الموزعين المحترفين لبعض الشركات العالمية والعلامات التجارية.

Masterpieces of science work in the field of devices, medical supplies laboratories and physiotherapy Anti-infection - primary care and therapeutic rehabilitation supplies. And pharmaceutical needs.

We are a newly established company dedicated to become one of the top market leaders in the implementation of the latest technologies and most advanced products in medicine. We import and market healthcare & medical equipment and consumables for hospitals and clinics. We are struggling dedicated to helping healthcare professionals perform their jobs more efficiently while enhancing patient care.
As we Supported by excellent financial capacity, and professional, and qualified works team MasterPieces works to be the one of the professional agent/distributors for some of international and brand companies.

HYGIENE

حلول النظافة والتعقيم لكل من مستخدمي نظام الرعاية الصحية والمهنيين.
المنتجات التكميلية للمستشفيات والتمريض ورعاية المسنين.

Hygiene and antisepsis solutions for both healthcare system users and professionals. complementary products for hospitals, nursing and geriatric care.

Nursing care

The range of nursing products has been developed to provide the necessary functionality, with maximum efficiency for the healthcare professional and maximum comfort for the user.

Arm and shoulder immobilizer.
Designed for easy application and adjustment. Made of non-woven fabric.
Supports forearm and wrist. Includes a thumb strap.
Adjustable straps with Velcro closures for positioninge it at the ideal slope. The chest strap limits the movement of the shoulder.

1. EXPAND THE IMMOBILIZER AS SHOWN IN THE PICTURE.

2. POSITION THE ARM.

3. THE PATIENT'S ARM SHOULD REST ON IT AT A RIGHT ANGLE.

4. SLIDE CLAMPING STRAP A OVER THE ARM AND ADJUST THE MEASUREMENT USING RING B.

5. WRAP THE OTHER D-BAND AROUND THE CHEST, IMMOBILIZING THE ARM.

Hospital

For general use

Shoulder immobilizer in Blue non woven

Size
available in 5 sizes

Composition
Bag in polyester fabric

Use
Arm, elbow and shoulder immobilizer.

Mesh shoulder immobilizer

Size
available in 5 sizes

Composition
Polyester mesh

Use
Arm. elbow and shoulder immobilizer

Grey shoulder immobilizer

Size
Available in 5 sizes

Composition
Foam + grey velour

Use
Arm, elbow and shoulder immobilizer.

Shoulder immobilizer in blue cotton

Size
Available in 5 sizes

Composition
cotton bag

Use
Arm, elbow and shoulder immobilizer.

SLINGS

Neck/wrist immobilizer

Size
Adjustable size

Composition
Foam + Velour

Use
Arm sling

Paediatric Limb holder

Size
Single size

Composition
foam + velour

Use
For newborn limbs

Security limb holder

Size
Ones size only

Composition
foam + polyester fibre

Use
body limb holder

Size

Composition

Use

ANTI-BEDSORES

Elbow-heel protector

Size
Reinforced area optional

Composition
Silicone Polyester Fibre

Use
Elbow and heel protection against bedsores

Anti-bedsore mattress

Size
200x84 cm

Composition
Silicone polyester fiber

Use
Avoid the appearance of bedsores on patients who are bedridden for long periods of time.

Dotted anti-bedsore pillow

Size
48x48 cm

Composition
100% Cotton and siliconized polyester fiber lining

Use
Avoiding bedsores on patients who are usually seated

Anti-bedsore pillow

Size
Different shapes

Composition

Use
Preventing bedsores

Operation Table Cover

Size
Available in three sizes

Composition
Waterproof polypropylene, comfortable polyester fibre + breathable viscose

Use
Provides patient comfort and fluid absorption on the operating table.

Confort Braun Splint Cover

Size
Available in three sizes

Composition

Use
Antiescaras y confort

Braun splint cover

Size
Available in three sizes

Composition

Use
provides confort and prevents bedsores

Knee Protector for Birthing Table

Size
41x43 cm

Composition
Polyester fibre and viscose

Use
knee protection and confort during the birth time

PROTECTION

Eye protector with rear support

Size
Available in three sizes

Composition
Velours Polyamide
+ Polyurethane foam
+ Cotton fabric

Use
Phototherapy protection

Bag for Ice

Size
sizes 2

Composition
Polyester fiber

Use
Cold Therapy

Eye Protector

Size
Available in three sizes

Composition

Use
Neonatal phototherapy protection

Medical Devices

We have added a range of products to our catalogue to meet the demands of our customers in the hospital and residential healthcare sectors.

Syringes

Disposable syringes are non-bacterial, nontoxic and non-pyrogenic after ethylene oxide sterilization. Easy to use, all material is latex, PVC and phthalate free.

Infusion sets

Disposable infusion sets are non-bacterial, nontoxic and non-pyrogenic after ethylene oxide sterilization. All material is latex-free and phthalate-free.

Examination gloves

Disposable examination gloves have been certified as personal protective equipment against chemical, mechanical and microbiological hazards and are suitable for food handling.

Disposable Bibs

Hygenic and disposable bibs for adults.

SYRINGES

3-piece luer lock syringes

Size
2,5/5/10/20/50 ml

Composition
Non-toxic and apyrogenic polypropylene.

Use
Liquid suction and perfusion.

3-piece syringe – Luer cone

Size
1/2,5/5/10/20/50/100 ml

Composition
Non-toxic and apyrogenic polypropylene.

Use
Liquid suction and perfusion.

3-piece syringes – catheter cone

Size
50ml - 100ml

Composition

Use
Liquid suction and perfusion

Dispomedic Infusion 3 way stopcock

Size
Available in 5 sizes

Composition
Silicon Membrane

Use
Recommended use for intermittent infusion and administration of intravenous medications.

EXAMINATION GLOVES & DISPOSABLE BIBS

Nitrile gloves

Size
from XS to XL

Composition
Nitrile

Use
Examination gloves

Latex Glove

Size
from XS to XL

Composition
Látex

Use
Examination gloves and IPE

Disposable Bibs

Size
36x66+10 cm

Composition
White absorbent paper + PE film

Use

INFUSION SETS

Dispomedic extension lines with flow regulator

Size
cm in length 40

Composition
Regulation by silicon membrane

Use
Precision flow regulation through 5-250 ml/h scale

Dispomedic extension lines with 3 way stopcock

Size
cm in length 10-100

Composition
Transparent polycarbonate

Use
Recommended use for intermittent infusion and administration of intravenous medications.

Vinyl Gloves

Size
from XS to XL

Composition
Vinyl

Use
Examination gloves and IPE

SURGISPON®

SURGISPON® - YOUR TRUE DEPENDABLE SURGERY ASSISTANT

SURGISPON® Absorbable Hemostatic Gelatin Sponge is a quick and effective hemostatic which stops bleeding fast. It reduces intra operative bleeding and surgery time. SURGISPON® is non-toxic, non-allergenic, non-immunogenic, and non- pyrogenic. SURGISPON® is already gamma-sterilized, and thus does not need to be resterilized. It is available in a convenient, ready to tear sterile blister/envelope, SURGISPON® unlike many haemostatic agents, does not require special storage conditions. The uniform porosity of SURGISPON® guarantees a favourable haemostasis. When implanted in vivo, it is completely absorbed within 3-4 weeks, with no residue and no encapsulation.

Surgi-ORC™

Surgi-ORC Absorbable Haemostatic Oxidized Renegerated Cellulose

- Haemostasis within 3 – 4 minutes
- Natural, Plant based
- Low pH creates bactericidal environment
- Completely absorbed within 7–14 days
- Can be cut into any desired dimension without fraying
- Applied dry and can be laid on, held against or wrapped around a bleeding surface
- High flexibility and drapability
- Full absorption at the site of application without tissue reaction
- In conformance with the requirements for Oxidized Regenerated Cellulose as described in the US-Pharmacopoeia (latest edition)

SURGI-PVA™

SURGI-PVA™ POLYVINYL ALCOHOL MEDICAL SPONGE AND DRESSINGS

The SURGI-PVA sponge provides a total fluid control for nasal and sinus surgery, epistaxis treatment, ear drainage and in the ophthalmic procedure drainage control. Lint and fiber- free PVA (Polyvinyl Alcohol) material has open-cell structure (interconnected pores), giving it both strength and softness, is superior to other fibrous packing materials in the application of post-operative hemorrhage and epistaxis treatment.

SURGISPON® PUTTY

Flexible Surgery Assistant

SURGISPON® PUTTY

“ The flexible surgery assistant ”

For fast & proven hemostasis for those hard to reach areas and from oozing spongy bone.

Surgispon® Putty can be easily formed into any shape, according to surgical site.

SURGISPON® PUTTY STOPS BLEEDING FAST, WITHIN 2 MINUTES.

SURGISPON® DENTAL

SURGISPON®

FAST AND EFFECTIVE.
ABSORBS 40-50 TIMES OF ITS OWN WEIGHT.
SAVES VALUABLE SURGICAL AND ANAESTHETIC TIME.
SURGISPON® is a sterile hemostatic absorbable gelatin sponge made of pure pharmaceutical gelatine (lyophilized hydrolyzed collagen) foam, which gives it a uniform porosity & reacts neutrally. The dried foam is cut, packaged and sterilised using gamma radiation. SURGISPON® is immediately available for use in the operating theatre and does not require any sterilisation by dry heat or autoclaving.

DENTOSPON™

DENTOSPON™

- Quick haemostasis.
- Stabilizes the blood coagulum.
- Smooth and complete resorption.
- Effective against a wide range of bacteria.
- Long lasting depot effect.

After extraction blood should be allowed to accumulate in the alveolums.

Cut DENTOSPON™ to correct size.

Place DENTOSPON™ in the wound and suture.

SURGISPON® TAMPON

SURGSURGISPON® ANAL TAMPON ISPON®

- Quick haemostasis in anorectal surgeries
- Best suitable for post operative haemostasis
- Painless and easy tampon discharge
- High blood absorption capacity
- Surgispon® Tampon is provided with an opening into which a flatus drain can be
- introduced

SURGISPON® ENT

SURGISPON®Absorbable Haemostatic Gelatin Sponge for ENT surgeries "Stops bleeding effectively "

- Porus structure and intrices enables the huge absorption of fluids
- Surgispon® is effective in supporting the new graft in the outer ear canal after tympanoplasty and buttressing middle ear implants
- pH-neutral makes suitable for use with the antibiotics /or other drugs.

Surgıspon® Patch Cardiovascular Applications

The Surgıspon® patch facilitates cardiovascular reconstructions and offers a wide range of features and benefits, including:

A Design to Minimize Bleeding: Advanced polymeric patch helps to seal the sutured area
Ease of Handling: Requires no rinsing before procedures, can easily be trimmed to the desired size, and can easily be accommodated by cardiovascular anatomy
Reliable Performance: Improved suture retention, low thrombogenicity, and resistance to aneurysmal dilation
Durability: Non-fraying with multi-directional strength

The Surgıspon® patch is designed for cardiovascular applications including cardiac, great vessel, and peripheral vascular repair and reconstruction. Advanced technology enables our Gelatin patch to seal around penetrating sutures and reduce suture line bleeding by a significant amount. This technology, combined with a low rate of restenosis, low thrombogenicity, improved suture retention, and multi-directional strength, sets the patch apart from the competition.

رسالة الرئيس التنفيذي

طموحنا ، منذ تأسيس MasterPieces of Science ، هو توفير منتجات طبية وصيدلانية في جميع أنحاء المملكة لتلبية الاحتياجات اليومية لعملائنا. نحن نبحث دائمًا عن مستقبل مشرق ، لذلك نحن ملتزمون بتحقيق رؤيتنا لتحويلها إلى قيمة مرضية لمجتمعنا. لذلك نعمل على جمع كافة مصادر الابتكار والجودة والتكنولوجيا من خلال منتجاتنا وخدماتنا. حيث تتركز رؤيتنا على عدة نقاط منها العميل والنتائج والنزاهة. كما وضعنا خطة متينة لتأهيل وتدريب الكادر الوطني من أجل ازدهار بلادنا وتقدمها. من خلال ما نقدمه من حلول في مجالنا. نحن نركز على تسريع تنفيذ استراتيجية النمو الخاصة بنا مع الاستمرار في البناء على قوة منتجاتنا.

أخيرًا ، أود أن أشكر جميع عملائنا في القطاعين الحكومي والخاص ، بالإضافة إلى شركائنا المحليين والدوليين ، والذين وضعوا ثقتهم في شركتنا.

المدير التنفيذي
وائل بن محمد

CEO Message

Our ambition, since the foundation of MasterPieces of Science, is to provide a medical and pharmaceutical products throughout the Kingdom to meet the daily needs of our customers. We are always looking for a bright future, so we are committed to achieving our vision in order to convert it into a satisfactory value for our society. Therefore, we are working to collect all sources of innovation, quality and technology through our products and services. Where our vision is focused on several points, including customer, results and integrity. We have also put in place a solid plan to rehabilitate and train the national cadre for the sake of the prosperity and progress of our country. Through what we offer of solutions in our field. We focus on accelerating the implementation of our growth strategy while continuing to build on the strength of our products. Finally, I would like to thank all our customers in the government and private sectors, in addition to our local and international partners, and those who .placed their trust in our company

CEO
Wael Bin Mohammad
